Lewis Nurseries

INCORPORATED

Roslyn, L. I.

## INTRODUCTION

---

This Nursery has been growing trees for twenty years and has built up one of the finest Nurseries in America.

We enjoy a national reputation for the quality of our stock among the City Park Departments, Landscape Architects and thousands of private home owners.

All stock herein listed is the finest that labor and skill can produce, and these prices are made possible only by quantity production and our steady outlet through our combined retail and wholesale trade.

All prices herein quoted include delivery by motor truck within twenty miles of our Nursery, or F. O. B. carload lots. On less than car lots boxing and baling at cost. Extra charge at cost for deliveries over twenty miles.

These prices include a guarantee under which we refurnish at one-half price any trees which fail to grow.

For large specimen trees, old specimen boxwood, and other rare trees, see our Specimen Tree Bulletin, copy mailed on request.

For the convenience of our patrons who cannot call on business days, there is always someone in attendance at our Nursery on Sundays and holidays.

All Evergreen trees will be delivered with a solid ball of earth, tightly wrapped in burlap, and the larger ones on platforms. Most of the large sized deciduous trees and shrubs are delivered with a ball of earth and some on platforms as required for safety. All other deciduous trees and shrubbery will be treated with a mixture of mud on the roots to prevent the roots from drying out quickly. Particular pains are taken at our Nursery to get a large quantity of root system dug up with each tree so that it will insure its success and rapid growth after transplanting to your property. All our trees and plants are transplanted often and root-pruned; therefore, the danger of any loss by transplanting to customers' property is very slight.

Our Nursery is located on the North Hempstead Turnpike, (Northern Boulevard) one and one-half miles east of Roslyn and near the Greenvale Railroad Station. Most anyone can direct you. See Map on back cover.

For the convenience of those who wish to look at stock without the attendance of a salesman we have provided a guide map on the center page which enables one to find any plant by locating on the map, the block letter indicated after each item in the catalogue.

Find Index on next to last page.

## EVERGREENS

All the Evergreens we offer for sale are compact, symmetrical and bushy, all root pruned and can be transplanted with practically no loss or set-back.

## EVERGREEN SHRUBS and GROUND COVERS

Our Nursery grown Rhododendrons, Laurel and Leucothoe, and other native varieties, can be transplanted with practically no loss or set-back, which is usual with collected wild plants.

## VINES

These vines are grown on upright stakes, which allows the tops a free untangled growth and makes them easy to fasten to a trellis or wall.

### MOYER'S PRIZE

The finest Apple of recent introduction. The original tree has been a yearly cropper for the last 35 years. Tree a good grower; fruit medium to large; yellow skin with blush on sunny side. Flesh crisp, white, juicy, melting, very fine and highly aromatic. Late keeper. Will keep till May. Introduced by the Laketon Nurseries.
